SEVENTH YEAR.

MAYSVILLE, KY., MONDAY, JUNE 6, 1898.

ONE CENT.

## Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can lose over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements accepted for publication, no matter in what part of the paper they appear.

## We Have!

Always contended for and maintain it is a fact that there is a higher order of intelligence evinced in the business of general merchandise by the people in this and nearby counties than most anywhere else. You will find few persons who do their shopping in Maysville who believe that \$4.00 will buy a \$12 suit of clothes. Our many years experience goes to show that people want good goods, and for which they are willing to pay a fair price. Our 1898 spring business proves that the higher the class of goods the readier they sell. Our beautiful Black and Blue Serge Suits (we sell them at \$15) have bounded into wonderful great favor with our good dressers. We have a beautiful line of them. The weather is getting right for our

These are the best creations of our own factory. Under ordinary circumstances our price to the consumer is about what you desire pay, but for the week prices will fall to the very bottom. All of our 50c. sailers, the kind you're buying for 50c. elsewhere, reduced to 25c. and our usual 30c. kind, of regular 31c. value, reduced to 20c. The war thus far has determined that the life of big guns is a good deal longer than naval authorities thought, and that American guns are the best in the world. Leading ordnance men supposed a gun ended its career of usefulness when it had been fired 300 or 350 times. Some of our big guns have been fired 300 or 350 times and are still good. One of the Miantonomoh 10-inch guns has been fired more than 300 times and shows no signs of wear.

## THE LEDGER PRINTS THE REAL NEWS

### SPOOK THE EARTH.

Nervous People Report a Severe Shock of Old Terra Firma.

According to various citizens old Mother Earth had a nervous attack about 2 o'clock this morning.

It may have been a continuation of the shock reported from Springfield a few days ago; it may have been a vibration caused by the belching of Sampson's big guns at San Juan; or it may have been due to the quality of red lickee consumed by the hearers on Saturday night.

At all events no damage was done and everything moves along with appointed regularity.

### MAYSVILLE MAN HONORED.

Morris C. Hutchins Appointed Chief Quartermaster With Rank of Major.

Shake, Major!

The "Man from Maysville" got there at last!

On Saturday the President appointed Captain M. C. Hutchins a Chief Quartermaster with the rank of Major.

The position is quite a good one, providing always that the officer gets an assignment in a pleasant city.

The pay, including commutation allowances, is \$208 per month, or \$2,500 per year.

While THE LEDGER congratulates Judge Hutchins on his appointment, it would have been glad had he been given something more commensurate with the service he has rendered to his country.

### KENTUCKY DISTILLERS.

Estimated That the Evans Outage Bill Will Save Them \$5,000,000.

If the Evans Outage Bill passes the Senate as it did the House, the saving in actual cash to the Kentucky Distillers will be about \$5,000,000, which will go far toward keeping on their feet some of those distillers who for the past six or seven years have been paying taxes on whiskey they did not have.

The main feature of the bill is its provision to renege whiskey at the end of seven years, the limit of the bonded period, and the payment of the tax on the amount of whiskey in the barrel at that time.

According to the old law repealed by the Evans Bill the distiller paid taxes on the whiskey in the barrel at the end of four years, which was always much in excess of the amount in the barrel at the end of the bonded period.

## Worth Saving.

Comparison of cost of gas at main office Western Union Telegraph Company, San Francisco, using the Welsbach System, with same period in previous year while using ordinary burners, shows a saving of over 50 per cent.:

Maxine is another strong card that should assist in filling the cozy little theater nightly by those who are devotees of terpsichore. Ben Turpin, dancer and comedian. Miss Ona Vincelli, the sweet singer, and several of the members of last week's show hold over. Manager Fremont should have no trouble in securing a good program from the above talent. Go out tonight.

### THE BANKS WIN.

The United States Court Knocks Out the Kentucky Legislature Some More.

At Cincinnati Saturday the United States Circuit Court of Appeals, Justice Harlan presiding, decided twenty six cases appealed from Kentucky Courts contesting the validity of a legislative act taxing franchises.

These cases were all brought by banks and trust companies.

The Court held that the Legislature had the power to create a tax board to fix the valuation of stock, etc.

Injunctions were granted in all cases where the banks had accepted the provisions of the old Hewitt Law of 1896, which provided for further taxation after the corporations had paid a tax of 25 cents on each share of stock.

## AMERICAN NAVY MAY WELL BE PROUD

The Perilous Operation Was Executed With Splendid Gallantry by Little Band of Volunteers.

Reval Game in West Indies Seems Play of Out-Santiago Iron Ship by Military Action—Cervera's Fleet Will Be Scuttled or Captured.

LONDON, June 6.—All the papers refer in terms of the highest praise to the Naval Constructor Hobson's daring exploit at Santiago de Cuba, but some doubts are thrown upon the statement that the Merrimack was sunk in the channel as the American reports assert.

The Times in an article reviewing the operations of the week says:

"It is most probable that Adm. Cervera has a deliberate intention to stay at Santiago, therefore, the channel would be of very little use to him. It seems clear that his squadron was not prepared for war or for sea when it left the Cape Verde islands, and there is good reason to doubt whether the Cristobal Colon even shipped her big guns at all.

"Hobson's exploit is one of which the American navy may well be proud. The idea that the wreck can be removed by the use of a little dynamite is described to all experience. Madrid observes the affair as a brilliant Spanish victory, but from dreams of such victories there is an unpleasant awakening.

"Adm. Cervera's period of evasion is now ended, and beyond creating an unreasonable panic in America, he has accomplished nothing. The action and fall of Santiago are now open to a question of time, with the disappearance of all the hopes founded upon the Spanish fleet.

"Spain's sympathizers recognize that her case is hopeless, and America will not distress herself much about such warnings as that of the St. Petersburg Novosti Saturday, until the combination assumes a more tangible form than there is any prospect of at present.

"Peace is at Spain's disposal when she seeks it frankly and sincerely, but her game is clearly lost and it is quite out of the question to define as 'honorable peace' one restoring the status quo.

The Daily Chronicle remarks: Added to the other dangers was the danger of sharks. The incident gives further reason to the removal of the American navy.

The Daily News says: "All English and Spanish will join with the Americans in admiration of this exploit under the point blank fire of the Spanish batteries. Whether the Merrimack was sunk or not, it is clear a fair way through the mines can not affect the praise due to the man who heroically volunteered to face almost certain death in the service of their country. If the United States can count on self-sacrifice of that kind in great emergency, the Santiago forts will be powerless to prevent Adm. Sampson reaching the Spanish squadron, and the result that measure seem good to him."

The article proceeds to argue that it is premature however to suppose that the channel is closed, or that it would be impossible to destroy the mine. It says: "English torpedo boats could devise many methods of floating out dynamite charges, unless the bulk lies far outside Morro Castle, in which case it can not be blocking the channel completely. If the Merrimack's masts and funnels are still visible, she must somewhere near the five farthest and has left the deep channel clear."

## REMARKABLE CASE.

Wm. Taylor, of the Cruiser New York, Wounded in the Arm, Abdomen, Liver, Lung and Shoulder, Recovered.

NEW YORK, May 6.—One of the remarkable cases brought here by the ambulance is Wm. Taylor, a Washington boy, and sailor, who was wounded on the cruiser New York. Taylor's recovery is the most marvelous of any of those remarked upon by the surgeons. One day after the bombardment of Matanzas, through which the men on the New York passed without harm, Taylor sustained injury, a revolver dropped from the belt of Boatswain Mullen and exploded. The bullet passed through Taylor's right arm at the elbow, entered the abdomen, passed up through the liver, grazed the lung and came through the left shoulder. An operation for laparotomy was performed and Taylor recovered, although naturally he is still suffering from the effects of his multiple wound and the operation.

## A HERO DEAD.

Capt. Chas. V. Gridley, Commander of the Olympia at Manila, Died at Kobe, Japan, June 4.

WASHINGTON, June 6.—Capt. Charles Vernon Gridley, commander of the cruiser Olympia, and one of the heroes of the brilliant victory at Manila, is dead. The announcement of his death was received by the navy department late Sunday afternoon in a cablegram from Paymaster Galt, of the navy, dated at Kobe, Japan, June 4, and directed to Secretary Long.

Capt. Gridley is the first American officer of great prominence whose death is a direct result of the existing war with Spain. As the commander of Adm. Dewey's splendid flag ship and one of the Admiral's chief advisors, Capt. Gridley achieved distinction at the battle of Manila, bay and added to his previous laurels by winning high praise from his superiors in the service for distinguished gallantry and ability. He fought his ship from the conning tower, while Adm. Dewey directed the movements of his squadron, from the bridge of the vessel. It was not known for several weeks after the engagement that Capt. Gridley was the victim from it, and even now the precise nature of his trouble is not disclosed. Upon the arrival of the ship at Hong Kong on May 20, the admiral was notified that Capt. Gridley had been condemned by a board of medical officers to be relieved from duty. Subsequent advice received by the department indicated that Capt. Gridley was suffering from the effects of a rupture supposed to have been received during the battle at Manila, but no details were given.

Capt. Gridley was born in Loganport, Ind., in 1845, was appointed to the naval academy from Hillsdale, Mich., in 1863, and served on the St. Petersburg Novosti Saturday, until the combination assumes a more tangible form than there is any prospect of at present.

"Peace is at Spain's disposal when she seeks it frankly and sincerely, but her game is clearly lost and it is quite out of the question to define as 'honorable peace' one restoring the status quo.

## THE TERROR.

Spanish Torpedo Boat Destroyer, Reported Sunk by Merrimack, Believed to Be the Furor.

KINROSS, Jamaica, June 6.—A dispatch from Port Antonio says: "A vessel that has arrived here from Santiago de Cuba reports that the Merrimack was sunk by the Spanish torpedo boat destroyer Furor." The assumption, based upon dispatches from Madrid, has been that the destroyer Furor, after leaving Port de France, went to Porto Rico waters, and it is probable that the Port Antonio dispatch confirms her with her sister destroyer, the Furor, which was reported to be in the case in dispatches from other points.

No Desire to Prosecute Castella. MADRID, June 4.—The queen regent has informed Senor Sagasta that she does not desire a prosecution of Senor Emilio Castella, the republican statesman, for the article attacking her, recently published in the Petite Revue Internationale, and reprinted in a leading Madrid paper.

The Revolution in Venezuela. PANAMA, Colombia, (via Galveston, Tex.) ## THE BOLDEST ACT IN NAVAL HISTORY

Volunteer Crew Seattles the Merrimack in the Mouth of the Harbor at Santiago de Cuba.

The Heroes Attempted to Return But Under Heavy Fire Compelled to Fly to the Spanish Flag Ship—They Will Be Exchanged.

WASHINGTON, June 6.—"The cork is driven in the bottle," says the comment of the naval officers at the navy department Saturday morning upon the news of the sinking of the collier Merrimack in the channel at the entrance of Santiago harbor.

They are absolutely satisfied that the ship was sent in by design of Sampson to close the channel and prevent the escape of the Spanish squadron, and that the undertaking was successful. If so, this will rank as one of the boldest achievements in naval history. It will outrank even Cushing's famous attack and the battle with his little torpedo boat. That is the opinion at the navy department at least. The officers say that Cushing had a fighting chance to escape after making his attack and he did escape. There was no such chance for the men who took the Merrimack into Santiago harbor under the guns which Schley's report described as of great power and over nests of submarines.

The number of Spanish prisoners at Fort McPherson is one first lieutenant, seven second lieutenants, one sergeant and one corporal.

Information afforded by the official records of the navy department as to the full names and antecedents of the

gallant sailors who made up Hobson's little crew in sinking the Merrimack differs in some essentials from the data furnished through the dispatch boats Sunday morning. The naval list is about as follows:

Daniel Montague, first-class machinist on the New York, born in Ireland, 12 years old, last enlistment in December, 1896; next of kin Kate Golden, sister, 84 Horatio street, New York.

George Charette, first-class gunner's mate on the New York, born in Ireland, 21 years old, last enlistment May 30, 1895; his next of kin is Alexander Charette, father, Lowell, Mass.

Osborn (not Oscar) Deigan, coxswain on the Merrimack, born in St. Louis, 21 years old, last enlistment April 24, 1895; next of kin Julia Deigan, mother, Stuart, Ia.

**MEXICAN DOLLARS**

They Will Play an Important Part in the Philippines.

**BOYS WILL GET TWO FOR ONE.**

One of the most interesting preparations for the outfitting of the Manila expedition has been announced.

The Government has purchased 250,000 Mexican silver dollars, which General Merritt will take along to defray the expenses of the expedition. This amount is not expected to last long, but more will be sent him from time to time.

By purchasing Mexican dollars a great saving is made.

It is possible to obtain Mexican dollars at 40 cents each, thus obtaining for one American dollar two Mexican ones, and leaving 8 cents over toward the purchase of a third. In other words, Uncle Sam was able to buy 250,000 Mexican dollars for \$116,000. They were bought in San Francisco.

In the Philippines a Mexican dollar will buy more than an American dollar, because of Spanish prejudice and because it contains more silver, so that the expenses of General Merritt's expedition after it once lands in Manila will be less than one-half what they would otherwise be.

As to the soldiers, they will fare excellently under this arrangement, for they will of course be paid according to law in American money.

The Paymaster will give each soldier two Mexican dollars for every American dollar due him on pay day.

**COX FOR CONGRESS**

Press Opinions on the Candidacy of Our Fellow-Citizen.

LOOKS LIKE HE'S IN THE LEAD.

Brookville Review.

The race between Pugh and Cox for the Republican nomination for Congress is waxing warm, and from the tone of our Republican exchanges, it's hard to tell just who's going to knock the persimmon. Both candidates have a strong following in this county, with Cox a little in the lead. The time and place for holding the Convention has never as yet been decided upon. The vote in the Convention will be as follows: Bath 8, Boyd 11, Drakken 6, Carter 12, Fleming 10, Greenup 9, Harrison 4, Lawrence 10, Lewis 12, Mason 13, Nicholas 6, Robertson 2, Rowan 4—Total 111. Necessary to a choice, 56.

**Mr. O'Neil Advances.**

All the papers of this Congressional District, irrespective of party affiliation, have been publishing a sketch of candidate for Congress, Hon. W. H. Cox of Mayville, embellished with a cut of that worthy gentleman.

**Dover Public Messenger.**

OUR NEXT CONGRESSMAN.

The Hon. William H. Cox of Mayville will be nominated by acclamation for Congress in the Ninth District in the coming Republican Convention.

The Hon. Samuel J. Pugh has twice carried off the honor for the county of Lewis, and, barring several mistakes, has made a creditable record.

We have not a word to say in opposition to Mr. Pugh, except that so far as the Congressional race in this District is concerned, he is no longer considered a factor.

His action in the distribution of the Postoffice in this District, and the appointment of "Advisory Boards" in the several counties, was a palpable evasion of his personal, if not official, responsibility. By his thus surrendering the well-known and acceptable prerogative of Congressmen naming the Postmasters, he threw the prizes in among the crowd of applicants, and allowed them to struggle and settle in among themselves. The result was much bitterness was engendered in nearly every county in the District, which is unfavorably remembered, and practically eliminates him as a possible or successful candidate for Congressional honors in the Ninth District.

Our words must not be construed as meddling dictation and interference, but as the private opinion, publicly expressed, of hundreds—aye, thousands—of good Republican voters in Mason, Bracken, Fleming, Boyd and other counties of the District.

The Hon. Samuel J. Pugh is a shrewd and able politician whose foresight is keen and watchful, therefore, he should see and judge of the true situation in the Ninth District and govern himself accordingly.

Mr. Pugh has not signified his purpose of again making the race. This of course is his own private affair.

He has been prominently mentioned as one of the Judges in the new Federal Court District of Kentucky. His legion of friends would be gratified to see him thus honored, and would rejoice to see him further elevated.

It is Mason county's turn now, and the Hon. William H. Cox is the man.

Mr. Cox possesses in an eminent degree all the qualifications of a successful Congressional candidate. He is entirely devoid of all political hypocrisy, and always hits his enemies squarely in the face, and is never so happy as when he punctures a fraud or extends the hand of help to unfortunate humanity.

There are other men just as good and noble as Mr. Cox, but Mason county never had a man of his wealth, standing
